Brave Reality

Evergreen Terrace

See your faith
See the wind
Your sealed fate
It's happened again
False convictions
Fake intentions
You still think that you get one more time around
False convictions
Fake intentions
You still think that you get one more time aroundSticking hard to your convictions
Convictions of nothing
Lying smiles to yourself
Self diluted dreams
Smiling wide
Head held high
This is how it seems
Step the plate
Accept your fate
Brave reality
False convictions
Fake intentions
You still think that you get one more time around
False convictions
Fake intentions
You still think that you get one more time around
False convictions
Fake intentions
You still think that you get one more time aroundWake up and choke...
Choke...Wake up and choke.
