Don't Tempt Me

Todd Snider

Don't tempt me, baby
I got a good thing going at home
Too much to lose if I don't leave it alone
But don't tempt me, babyYou got my heart locked out of your mind
I found the key but I have run out of time
I'm trying to walk out of here walking the line
Don't tempt me, babyIn the mirror behind the bar I could see
That come on over look that you gave to me
But truly flattering I guarantee
But I'm as spoken for as you must be freeDon't tempt me, baby
I've got a ring around my finger you know
I should have headed home a long time ago
But don't tempt me, babyI made a promise it was well understood
Of what I couldn't do and what I could
I'm feeling weak and you're looking so good
Don't tempt me, babySay now big boy, don't you flatter yourself
That mirror must be showing you something else
You've been sitting here since two o'clock
And anyone can see you're stoned as a rockYou don't tempt me, baby
You got a good thing going at home
Too much to lose if I don't leave it alone
Don't tempt me, babyYou got my heart locked out of your mind
I found the key but I have run out of time
I'm walking out of here, walking the line
Don't tempt me, baby
