

Wanna Take You Home

Gloriana

Well I've been watching you girl
The way you move got the room on fire
Oh yeah rock my world
Wanna take you home with me

Well I ain't letting you go
Home with the boy who don't deserve you
Oh yeah baby don't say no
I wanna take you home with me

You should never be lonely (lonely)
You're the best that I've ever seen

[Chorus]

I wanna take you back to my place
You can do your dance on the kitchen floor
I wanna hear your boots knocking down that hallway
Right on through that bedroom door
I wanna lay you down next to me (next to me)
I wanna ease your mind and maybe set you free
Can't you see I wanna take you home with me

Oh my time does fly
Two a.m. and the bar is closing
Are we saying goodbye
Or are you coming home with me

You should never be lonely (lonely)
You're the best that I've ever seen

[Chorus]

Lay your body next to me
All your troubles up and leave
Ease my mind and set me free
Come on come on

Lay your body next to me
All your troubles up and leave
Ease my mind and set me free

Come on come on

Maybe stay with me tonight
Hug and squeeze and hold me tight
Kiss your face in morning light
Come on come on

[Chorus]

Lay your body next to me
All your troubles up and leave
Ease my mind and set me free
Come on come on
