

Fire and Ice (Demoverision 1988)

[Axxis](#)

Stay where you are
And hear the natural sounds
Blowin' in your ears
And if you try to understand
Be captured by unknown fears Cause our world has changed its face
Day by day
See the signs all around
The nature strikes back Fire and ice
Cold and heat
Hunger and war Like a drop on a burnin' stone
We'll vanish in the universe
Are we the owner of our own?
No, that's not mankind's earth Forgotten are all these promises
On which we've build our lives
Forgotten are all the preachers
With all their lies Fire and ice
Cold and heat
Hunger and war
