

# A Star Too Far (Lullaby for Syd Barrett)

## Psychic TV

Look at your stars  
- It's not just star  
It's all inside  
- We're not on Mars  
Just realise  
- It's where you are  
How far- Go back outside  
Look at your stars  
- Don't ever hide  
It's all inside  
- Behind your eyes  
Just realise  
- So sad, so wise  
How farLook at your skies  
- A comet you are  
It's all inside  
- It's a star too far  
Just realise  
How far" And we feel our own experiences" x2 "This is what we're trying to do" It's not just stars  
We're not on Mars  
It's where you are  
Go back outside  
Don't ever hide  
Behind your eyes  
So sad, so wise  
A comet you are  
It's a star too far" Risk all to grasp the deepest and most hidden revelations"
