Don't Talk to Him

[Cliff Richard](#)

If some guy tells you, I dont care
And tells you lies, while Im not there
Dont talk to himAnd if he tells you, Im untrue
Then darling, here's what you must do
Dont talk to himAnd if he tells you, Ive been seen
Walking round with Sue and Jean
Hes lying againDo anything that you want to
But darling, this I beg of you
Dont talk to himIf you hear the words he has to say
Hell break your heart
Let your love for me prove strong
While we are far apartSo just remember what I say
And trust in me, while Im away
For Ill be trueAnd just remember
My true love is brighter than the moon above, for only you
And if this guy should try to say
My love for your is only play, merely a whimJust close your eyes and count to ten
Think of me again
But dont you talk to himIf you hear the words he has to say
Hell break your heart
Let your love for me prove strong
While we are far apart
