

Little Things

Rodney Carrington

When I'm sittin' on a toilet in a house that I don't know

Lookin' all around me where'd the toilet paper go

Feelin' real uneasy, feelin' real uncertain

Gotta wipe my ass again with a plastic shower curtain It's those little things, those itty-bitty things

It's those little things like that, that piss me off When I pick up on a woman, I take her home to bed

She takes her clothes off gets on her knees and

I ask her what her name was told me it was Venus

Well, I reach down between her legs Oh good Lord, it's those little things, those itty-bitty things

That woman had a big thing it ain't no little thing, it pissed me off She had a dick and can't you understand that?

Okay
