

# If You're Happy and You Know It

Raffi

If you're happy and you know it, clap your hands!

If you're happy and you know it, clap your hands!

If you're happy and you know it,

Then your face will surely show it.

If you're happy and you know it, clap your hands! If you're happy and you know it, shout Hooray!

If you're happy and you know it, shout Hooray!

If you're happy and you know it,

Then your face will surely show it.

If you're happy and you know it, shout Hooray!

If you're happy and you know it, do all three!

If you're happy and you know it, do all three!

If you're happy and you know it,

Then your face will surely show it.

If you're happy and you know it, do all three!
