## Fountains Of Wayne

courter to three at the DMV, that's when I saw her, she didn't see me  
behind with dobe, explaining patiently and she needs to see six forms of i.d.  
oh tell me now who do you love, who do you love, who can you trust with your love these days... yolanda hayes  
yolanda hayes  
courter to four, the line's still out the door, i can see in her eyes, she's heard it all before  
she's lookin all right, despite the bright florescent lights, and i wonder what she's like when she gets home at  
night  
oh tell me now who do you love, who do you love, who can you trust with your love these days... yolanda hayes  
yolanda hayes yolanda hayes yolanda hayes  
it occures to me suddenly she's been here for an eternity  
the hours pass, the days go by, well has anybody really tried to cross that line to get inside?  
a little more time, and now the girl is mine  
i've hit her with my very best pickup line  
she puts down my file, stares at me wild and i swear i see her crack a little smile  
oh tell me now who do you love, who do you love, who can you trust with your love these days...  
oh tell me now who do you love, who do you love, who can you trust with your love these days... yolanda  
hayes, yolanda hayes, yolanda hayes, yolanda hayes
