

# Escape

## Radical Something

Trying to escape  
Leave the shade  
Find the sunshine baby  
Let me light the way away from here  
I said no way this bridge can hold our weight  
Let me light the way away from here Now I'ma tell you like you told me  
If cash rules everything around 'til I leave  
Now I am not saying people shouldnt buy shit  
I am just saying that our country didnt bat an eyelid  
When Americas got blood on its hands  
And we scramble going Rambo to accumulate land  
And leaders sitting down when we're asking them stand  
And doesn't really seem like the rights in command  
So I have been thinking of a master plan  
Cause most of us would rather get cash in advance  
Then meet the people that are different just to shake some hands  
Man all we gotta do is give it a chance  
I guess if it was all that easy we wouldnt break treaties  
We wouldnt even need these  
Somebody teach the world these lyrics  
So maybe one day then we're all gonna hear it Trying to escape  
Leave the shade  
Find the sunshine baby  
Let me light the way away from here  
I said no way this bridge can hold our weight  
Let me light the way away from here Oh, Oh, Oh  
I guess this how its supposed to be  
But there more to being green then just roasting trees  
Sometimes I'm blinded by what's in between the stems and seeds  
That's why I've learned to live my life without a need for weed  
Yeah, thats my Microsoft Word to your Mother  
Why can't we just live and enjoy each other  
Cause either way you look up at the world that we cover  
We all end up being sisters and brothers  
And man I'm in a beautiful position  
Thats why I am asking you to encourage some ambition  
And chalk it all up, boy this talk is all buff  
I'm starting from the ground 'til I build it all up  
And can you learn from me

And I promise I will learn from thee  
I'm gonna teach the world these lyrics  
And one day were all gonna hear it
