

# Fragmented World

## Split Single

I live in a fragmented world  
ever since you went away  
I barely breathe in a fragmented world  
While I find my way. I still have pictures of you  
Salvation's memories  
I stare too long at these pictures of you  
While you do something new Monday, Tuesday, I'm fine  
Just alright  
Thursday, Friday, I'm dying  
I try to find my way I'm still in a fragmented world  
ever since you went away  
I barely breathe in a fragmented world  
While I try my way
