

# Mystery Man (Demo)

## Sebadoh

Earnest little lover, little mystery man  
Nothing thrills you like denial  
There's nothing wrong with the need to please  
And children know no shameBaby, on your bended knees  
And she'd love to play your game  
She's a curious girl, easily swayed by your force of will  
Empty to be filled with the hunger for moreWhat if time denies you  
The key to your fulfillment fails?  
Around the world again on a boat  
That sinks as it sailsStand shoulders above her  
Pick her up when you love her  
Rub it right when you use her  
Need it so bad you abuse herBut don't leave her alone  
Cause soon she'll be tasting  
The sweet unknown  
If it feeds her candy, she'll follow it homeMake your claim, she's legally yours  
When she shares your name  
But don't lose control cause you'll scare her away  
Go on beg her to stay
