

# Brick By Brick

## Iggy Pop

People are so sad and I know why  
With no chance to live before you die  
You get pretty sick if you have to keep it inside  
I wanna build a house where an ad don't scream  
I wanna live in peace-quietly  
I wanna have a place of love and safety  
People oughta live how and where they want  
People oughta have respect in front  
People oughta get along pretty okay  
So get off my dick  
I'm building it brick by brick  
Brick by brick  
I'm building a house where I can think  
And have some balance and dignity  
I'm building a house where no one can hurt me  
I'm building a house where the weak are strong  
I'm building a house with a real song  
I'm using a faith that is immortal  
I'm building it with simplicity  
And the way that we feel, you and me  
I'm building it with what I believe in  
So get off my dick  
'Cause I'm building it brick by brick  
Brick by brick  
Brick by brick  
Now I'm looking  
At just a little time  
So be it  
I want to be true  
To my simple heart  
And not put nothing else above it  
Brick by brick  
Brick by brick  
Brick by brick  
Brick by brick  
Brick by brick by brick
