This Maniac's In Love With You

Alice Cooper

I used to be so in control
But reality is losing it's hold
Now I don't know where to begin
Just look at the state that I'm in
My mind is in total decay
I'm comin' to take you awayThere's nothing more that I can do
This maniac's in love with you
Your biggest fear has just come true
This maniac's in love with you
This maniac's in love with you
This maniac, this maniacMy heart has been strapped in a straight jacket love"
The therapy boys say, "It fits like a glove"
I'm crossing the line in my brain
The line between pleasure and pain
It takes all I've got to survive
This madness will eat me aliveThere's nothing more that I can do
This maniac's in love with you
Your biggest fear has just come true
This maniac's in love with you
There's nothing more that I can do
This maniac's in love with you
I'm all locked up inside of you
This maniac, this maniacI just don't know where to begin
Just look at the state that I'm in
My mind is in total decay
I'm comin' to take you awayThere's nothing more that you can do
This maniac's in love with you
Your biggest fear has just come true
This maniac's in love with you
There's nothing more that you can do
This maniac's in love with you
Your biggest fear has just come true
This maniac, this maniacThis maniac's in love with you
This maniac's in love with youThere's nothing more that you can do
This maniac's in love with you
Your biggest fear has just come true
This maniac's in love with you
You're pullin' my hand and I'm fallin' to
This maniac's in love with you

Your biggest fear has just come true
This maniac's in love with you
This maniac's in love with you
