

Rise of the Reptilian Regime

Scar Symmetry

As the spirit serpents slither, caught between the worlds they wait
They're infiltrating earth vibration, strands of reptoid DNA Invasion of the mind
Their essence crawls through the portals of our dimensional level There is proof of their grotesque presence on
display throughout our world
In a gesture of invitation placed in art and written word A reign eternal, they saw the birth of the sun
They will remain when we are all dead and gone Reptilian regime
Rise to reign
Draconian descent emerging from above
Reptilian regime
Rise to reign
Draconian descent from above Possessing by design through ritual
Gaining access to our dimensional level As the spirit serpents slither, caught between the worlds they wait
They're infiltrating earth vibration, strands of reptoid DNA A reign eternal, they saw the birth of the sun
They will remain when we are all dead and gone Reptilian regime
Rise to reign
Draconian descent emerging from above
Reptilian regime
Rise to reign
Draconian descent outside time Rising to reign from times of old
And forsake the afterlife [Lead: Kjellgren] A reign eternal, they'll see the death of the sun
They will remain when all things are dead and gone Reptilian regime
Rise to reign
Draconian descent emerging from above
Reptilian regime
Rise to reign
Draconian descent from above
