

Till You Opened My Eyes

[John Denver](#)

Down, down, down deeper into love
All around, I can feel your love
All my life Ive been dreaming
Night into morning till you opened my eyes Love, love, love such a mystery
Golden light shining down on me
Soft and warm as the warming
But I never saw it till you opened my eyes Floating in circles, Im flying
It feels so good that Im crying Down, down, down deep inside of me
Love sweet loves all that I can see
Golden light keeps on shining
Shining forever, since you opened my eyes
