It's Time to Go

Chester See

Verse 1
My fears are the tears and the sorrow
I think I'll just wait for tomorrow
cause I can't find the strength to leave you right now

So I'll play my role in the mean time
but the curtains have fell, I've got no lines
What's left to say if it's been said before

I've searched my self for an answer I know

It's time to go

Verse 2
My needs and my wants have collided
You can't deny what the heart has decided
I'm fighting a battle that I know I can't win

And I'm troubled by moments of laughter
reminding me what I was after
but it's never enough of a moment that lasts

it's tough to say but harder to show

It's time to go

Verse 3
Am I deciding or stalling
cause I sing all the words but won't talk it
sometimes i just wish you would tell me you're thru

Cause I'm looking for places to put blame
But it always comes back from where it came
I know that you've never done anything wrong

I sing the words but it's time we spoke

It's time to go.
