

Sorry

Ub40

Please don't say sorry
Presuming a respect for what you say
If in your heart you mean it
Then you'll understand me feeling
You must prove it; sign the cheque without delay
Most humbly yours, four hundred years back pay(chorus)I'm not begging charity
Don't confuse the things I say
Give me what belongs to me
Give me what belongs to meJust don't say sorry
As if that can excuse this tyranny
No value in your talking
Money speaks and bullshit's walking
Round in circles re-inventing history
Trying to erase our memory(chorus)I'm not beggingetcIf you say sorry
Can I assume you've realised the shame
The seeds of your oppression
Fall and ripen with aggression
You can't hold us any longer with your chains
Time to compensate us for our claimsDon't bother wi' no sorry
Don't bother wi' delay
A four hundred years
Is not just the other dayI'm not begging charity
Don't confuse up your mind
Payment overdue
Fe a long long timeYou come a we gate
No bother hesitate
You tek away we tings
Like a damn pirate
