

Let's Ride

Easton Corbin

Baby can't you feel that
Baby don't you hear that
That's the sound freedom calling our name
It's telling us that all we gotta do is turn the key
Let this feeling carry us away Baby lets ride
Chase a little sunset
Watch that full moon rise
Baby lets ride
Find some road where there ain't no end in sight
Let the wheels of this RAM truck kick up a little dust while your holding on tight
Come on!
Baby lets ride Girl you know the night is young
No reason not to run
A few miles of memories down this road
Baby we don't need a map
Pick a star we'll follow that
What are we waitin on girl lets go Baby lets ride
Chase a little sunset
Watch that full moon rise
Baby lets ride
Find some road where there ain't no end in sight
Let the wheels of this RAM truck kick up a little dust while your holding on tight
Come on!
Baby lets ride
This is how you got me feelin right now
Baby lets ride
Don't look back it'll never come down
Let the wheels of this RAM truck kick up a little dust while your holding on tight
Come on!
Baby lets ride
