

Look at Me, Look at U

Prince

Look at me
Tell me what U C
The back and forth of an earthquake
Goes strong and sturdy tree
Eye ask myself this question, but it's still a mystery
How eye'm gonna keep my balance when eye
Look at UHow can U not know
Standing over there like a Nefertiti, or the queen Dido
Please don't think too ill of me
It's all that eye can do
Not to feel myself when eye
Look at youModesty aside, whoever made U should be praised. Yes!
Ain't no need to hide
Every glass should be raised
Brandy or martini
Kudos overdue
What else is there really when eye
Look at you?Fight it, yes, my soul has tried
When U look at me
All other women just roll their eyes
But even Ray Charles can see U
Stevie Wonder can 2
Thoughts well up and wonder
Thinking about me and U
A dozen fantasies U
Call me won and done
When U look at me
Look at U, look at me
