

Working under mine

Pax Afro

Pax Afro - working under the mine

All week long I shaft it underground
To bring back the world underneath
I go down just like another tool
Digging deep and deep down beneath
As I go deep, I feel the pain
As my labour goes down through the drain

Working under the mine
Mining what is not mine
Working under the mine
Mining what is not mine

All day long i may work five to nine
I get home tired like a dog
My romance has since become a bore
I now feel like a lonely Hoax
Oh my sweet Jane,i feel the pain
As i go deep in labour through the drain

Working under the mine
Mining what is not mine
Working under the mine
Mining what is not mine

There's one thing i now understand
From this mine come good things of life
Tell my boss that i now thus demand
Diamond ring for my precious wife
Some millionaire,has a solitaire
Deep from this mine

I want some good things of life

Working under the mine
Mining what is not mine
Working under the mine
Mining what is not mine

Working under the mine
Mining what is not mine
Working under the mine
Mining what is not mine
