

I'm Not That Kind of Guy

Blue System

She walked to the room and she asked me to dance
I got a heart for a second chance
She was kissin' me all the night awayIve got what you need and babe, its true
I give it up just for you
She was kissin' me baby all the night awayShes just like a bird, flyin' alone
She will make it baby on her own
Even when Im fall in love with youShe was holdin' me [Incomprehensible]
Kissed to make a millionaire
Dancin' all the night awayIm not that kind of guy whos breakin' lonely hearts
Im not that kind of guy who breaks a promise in the dark
Im not that lonely child whos fightin' for a start
Im not that kind of guy whos breakin' just a lonely heartYou know, Im born on the wrong side of town
But you can keep a good man down
She was kissin' me baby all the night awayIm just like a child in a Hollywood night
How can I win if you do not fight ?
She was kissin' me baby all the night awayShe took my love, my love for two
And there will be never another you
Even just a fool dont let you goCome fly with me on the wings of love
She loved me and I need that stuff
Dancin' all the night awayIm not that kind of guy whos breakin' lonely hearts
Im not that kind of guy who breaks a promise in the dark
Im not that lonely child whos fightin' for a start
Im not that kind of guy whos breakin' just a lonely heartIm not that kind of guy whos breakin' lonely hearts
Im not that kind of guy who breaks a promise in the dark
Im not that lonely child whos fightin' for a start
Im not that kind of guy whos breakin' just a lonely heart
