

Rainin'

Sponge

Well now and forever the moment's gone and time runs out
And then it hits you with the pain, the things are great on the way up
But nobody is with you when you're on the way down
You got what you wished for, is that what you really wanted? It's how I think of you, it's how I think of you all
the way, yeah
Well it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house Indecision, problems that took years to build and build
And admission is too far away, well life in a blackout like life in a storm
When you finally come out you see that you're all alone
Well you got what you wished for, is that what you really wanted? It's how I think of you, it's how I think of
you all the way, yeah
Well it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house This is the day that you will break, you are born
Then you have to deal with the blame, the blame, the blame Well man, it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house, my house, my house
Well, it's raining, it's raining in my house
Yeah man, it's raining, it's raining in my house
