

# The Other Side of Me

## Gotthard

Alright, I'm a tricky situation  
Somehow I gotta try to unwind  
You see I'm not alone, I know it shows  
Ya 'know I saw it comin' around  
'cause there's a part of me  
That sleeps and creeps, deep in my mind I can show you my charms  
I can be Mr. nice or let you see  
My dual personality  
The one I "Hyde", I can show you my charms  
But you know that we might have company  
I think the name is lunacy  
Really want to try  
The other side of me So tight, you know I'm stuck inside relations  
Sometimes, I just don't know who I'll find  
You see I'm not alone, I know it shows  
Ya' know I saw it comin' around  
'cause there's a part of me  
That sleeps and creeps, deep in my mind I can show you my charms  
I can be Mr. nice or let you see  
My dual personality  
The one I "Hyde"  
I can show you my charms  
But you know that we might have company  
I think the name is lunacy  
Really want to try  
The other side of me I can show you my charms  
I can be Mr. nice or let you see  
My dual personality  
The one I "Hyde"  
I can show you my charms  
But you know that we might have company  
I think the name is lunacy  
Really want to try  
The other side of me I can show you my charms  
I can be Mr. nice or let you see  
My dual personality  
The one I "Hyde"  
I can show you my charms  
But you know that we might have company

I think the name is lunacy  
Really want to try  
The other side of me
