

Damn Girl

Justin Timberlake

Damn girl, damn girl
Damn girl, damn girl
Damn girl, damnDamn girl, damn girl
Damn girl, damn girl
Damn girl, damn
Listen to meI've been around the world, seen a million hunnies
Really special girls, gave all my time and money
But, there's something 'bout ya, something that's kinda funny
Girl, it's what you do to meDon't need no Maybelline 'cause you're a beauty queen
Don't need no L'oreal 'cause bitch you're bad as hell
If I'm a Casanova? Then you're a Supernova
Girl, it's what you do to meThat's got me saying, damn girl, you're so fine
The way you let me put it down, girl, blows my mind
I guess I gotta put it down tonight
I gotta put it downDamn
Damn girl, damn girl
Damn girl, damn girl
Damn girl, damnGive me something
Damn girl, damn girl
Damn girl, damn girl
Damn girl, damnI said there's something bout the way you do the things you do
When you do the things you do, it' got me
I said there's something bout the way you do the things you do
When you do the things you do, its got meI said you don't need no Maybelline 'cause you a beauty queen
Don't need no L'oreal 'cause bitch you're bad as hell
If I'm a Casanova? Then you're a Supernova
Girl, it's what you do to meIt's got me saying, damn girl, you're so fine
The way you let me put it down, girl, just blows my mind
I guess I gotta put it down tonight
I gotta put it downBaby, give me some of your tasty
Cinnamon give me some of your feminine gelatin
'Cause got a cinnamon going crazyHey, ba-ba-baby, baby
You the one I've been feigning for
When I'm dreaming I'm dreaming of you
When you're gone I've been screaming for yaSo why don't you be my chick and stuff
Take you out to dinner and catch the funky stuff?
If we spend time I'll never get enough
You're so fine make a brother blushGot me looking like a black grape and stuff
First time saying you had me gonna crush

And if you ever give it to me, give it to me rough
You got me saying, got me saying You got me saying, damn girl, you're so fine
The way you let me put it down, girl, just blows my mind
So now I guess I gotta put it down tonight
I gotta put it down I'm saying, damn girl, you're so fine
The way you let me put it down, girl, blows my mind baby
I guess I gotta put it down tonight
I gotta put it down I said there's something 'bout the way you do the things you do
When you do the things you do, it's got me
I said there's something 'bout the way you do the things you do
When you do the things you do, it's got me Sing it with me, go, something 'bout the way you do the things you
do
When you do the things you do, it's got me
Sing it for me, go, something 'bout the way you do the things you do
When you do the things you do, it's got me Damn girl, damn girl
Damn girl, damn girl
Damn Damn girl, damn girl
Damn girl, damn girl
Damn girl, damn
