

For All That I Am

Club America

Be yourself and
Be your lies and
Live your life again Be that way and
Don't hang on and
Carry on again It's just my thoughts inside my mind
It's just the way I feel inside
It's the truth behind your lies
It's in the color of your eyes Be your heart and
Be your laugh and
On my mind again Be this way and
Walk away and
All around again For all that I am
You taught me to be
And now I'm not alone
