

Ashes or Bones

Harley Poe

Come into my den for a movie
I'll let you pick one out girl, it's up to you
I've got some more Jeffery Combs and John Ashley I think they're both pretty groovy
And maybe when it's over you and I can
I'll serve us some food and my zombie chicken dip
I'll mix up some cocktails to play with our heads
I'll get you kind of tipsy so you'll wiggle those hips girl
We'll wrestle on the couch while the boys are in their bed
Let's pretend that we don't mind
That we're running out of time
And everybody knows that we all end up ashes or bones
And everybody fears but some of us just couldn't care
But everybody finds a way to ease their minds
And everybody goes
And everybody!

Step into my studio for another drink
I'll show you my Madballs and muscles and Rat Fink
Hey yo you want to check out my custom painted movie monster collection
And we can take some treatments and have some fun
Let's go to my backyard and we can start a fire
Then we can drop some Koopas and get a bit higher
And yo let's take a ride in your new automobile
And try to keep track of the people we kill
Let's pretend that we don't care
And hope tomorrow that we're still here
And everybody knows that we all end up ashes or bones
And everybody fears but some of us just couldn't care
And everybody finds a way to ease their minds
And everybody goes
And everybody!

Everybody knows we all end up ashes or bones
And everybody fears but some of us just couldn't care
And everybody finds a way to ease their minds
And everybody goes
And everybody dies
Say hello Erin
