

# In The Meantime

## Helmet

Earth tone suits you  
So give it a smile  
If I could hold your feet down  
Get to know for awhile To make due is a promise  
Hard to keep without help  
Never taught to look in  
I'm too concerned with my health Help me spread right ashes  
Cow fertilized  
Come down in a feed town  
Strength to minimize Hold it, in the meantime  
In the meantime, in the meantime  
Time, in the meantime, meantime
