

# A Lesson Never Learned

## Asking Alexandria

Please you have to help me  
This is not my true face  
If you could see my soul  
As I have seen my soul  
I could show it to you  
It's rotten  
It's poison  
Help me please

Please, give me a fucking excuse  
I beg for just one reason to give you regret  
Regret!

Are you with me or are you on your own  
It's time to choose your side  
So choose your side!  
Are you with me or are you on your own  
It's time to choose your side  
So choose your fucking side!

Could be the end of the world  
Woah  
I'd still be laid here on my own, wasting my life away!  
Could be the end of the world  
Woah!  
I'd still be laid here on my own, wasting my life away!

Hear me now!  
Get off your knees  
Nothing changes when you pray  
I'm the closest thing to a God you'll ever know!  
Get off your knees!  
Open your eyes!

I'll regret, never again!  
And I stand above you!  
I'll regret, never again!  
And I stand above you!

And I can't feel this pain anymore

And I can't carry on this way  
I'm hiding behind false eyes

Could be the end of the world  
Woah!

I'd still be laid here on my own wasting my life away!

Could be the end of the world  
Woah!

I'd still be laid here on my own, wasting my life away!

Over and over  
Over and over  
Fuckin' Hell  
Fuck!
