

# I Got Your Number

## Newsboys

I got your number  
where love can be found

I got your number  
where truth can be found

I asked you in one day  
and you came into my life

I got your number  
for the rest of my life

Chorus

I can feel your love  
flowing out to me  
each day and night

I can see clearly now

I see your eyes in the starry skies

I can feel your life flowing out to me  
with each breath I take

I can see clearly now

your Spirit has shown me the perfect way I've got your number

and I'm happy to say

you set my heart on fire  
with every move you make  
when you walk into a room  
it lights up with your grace

I got your number now

it's the hot line to your place Chorus Bridge:

you say you say you want

you say you say you want

you say you say you want to be free you want you want you want

you want you want you want

you want you want you want to be free you can you can you can

you can you can you can

you can you can you can be free I got your number

it's written deep within my heart

you filled that emptiness

and lighted up a new part

there's much more to life

than other numbers on the wall

I got your number

it's a burning deep within my soul Chorus
