

I Get Scared

Dmx

[Intro] I, I get scared and it comes
But I know I'm gonna be alright
I get scared when it comes
And I know I'm gonna be alright
[Hook] I, I get scared when you're gone
But I know I'm gonna be alright
I get scared when you're gone
And I know I'm gonna be alright
[Verse] Y'all don't know things I know
Where I've been where I go
Y'all don't know 'cause y'all can't see
Look, you too unit, BPE
Y'all don't know the pain I felt
How I played the card that were dealt
Y'all don't know what you're talking about
Y'all need to stop putting your mouth
[Hook] I, I get scared when you're gone
But I know I'm gonna be alright
I get scared when you're gone
And I know I'm gonna be alright
[Verse] I get down for real I know it your way
Sunday to Sunday when the game is dealt
Remember that one day, I'm gonna get it
'Til I get it, all I get
We can get to and the fat bitch cooking
Like a nosey this Snooki
Been at the age hunting, since the age 11
Made me think you on stage
You frontin for the kill
I'm that nigga that if I knock on your door
You look into my eyes you be like "dog, what's wrong?"
Feel like I'm getting something in the head
Wait come here, ye it's coming from right there
[Hook: DMX] I, I get scared when you're gone
But I know I'm gonna be alright
I get scared when you're gone
And I know I'm gonna be alright
[Hook: Adreena] I, I get scared when you're gone
But I know I'm gonna be alright

I get scared when you're gone
And I'm gonna be alright
I'm gonna be alright
[Hook]I, I get scared when you're gone
But I know I'm gonna be alright
I get scared when you're gone
And I know I'm gonna be alright
[Verse]You would never let me real so I always hate
Make a nigga take it back from where it all began
Even be real, ye it's that bad
When we get to sippin' ye we're not that
Whenever you gonna do there's no concentrate
Shit there's something on my cock take it to the face
Hey you dissing in the wrong place at the wrong time
I'm taking everything you got I want all mine
How you gon' stop me when I don't stop for signs
Hey you got mine, I'm gon' start lying
But instead a nigga tryin' don't stop it from happening
I guess they won't get it 'til they stop clapping
