## Charlotte Gainsbourg

Take a picture what's inside  
Ghost watching my mind  
Neural pattern like a spider  
Capillary to the centre  
Hold still and press a button  
Looking through a glass onion  
Following the X-Ray eye  
From the cortex to medulla

Analyse C K G  
Can you see a memory  
Register all my fears  
On a flipshot disappear  
Leave my head demagnetised  
Tell me where the trauma lies

....
