I've Changed

Katsue

I'm not whilin' out like I used to
I don't do the things I used to no more
I've changed for you
Lookin' back I thought I would never
Love like this, broke so many hearts before
I've changed for you
I don't do the things that I used to do no more
Everythin' that you do I adore
No more lies, no more games
Everythin' I say I mean
And all the love you give me, baby
It means so much to me
So don't take your love away
No one compares to what you do for me
And every time that you see me, baby
You take me in your arms, hold me
Trust me baby, I won't ever leave you
Believe me, I'm yours forever
You need me 'cause I'm down whatever
Damn I've changed
I'm not whilin' out like I used to
I don't do the things that I used to no more
I've changed for you
Lookin' back I thought I would never
Love like this, broke so many hearts before
I've changed for you
Pull out the fine wine glasses, dinner in bed
Went and took some culinary classes
Gotta stay sexy for you baby
Tighten up my body, workin' on my ghetto Pilates
I'm not goin' out tonight we can hit the sofa
Cuddle up, satellite service
Oh baby whatever, let me accommodate you
Is there anything you like for me to change?
I can cut my plats but I can't cover up my tats
I did some things that I can't take back
But baby it's true, I would change it all for you
Believe me, I'm yours forever
Completely, I'm down for whatever

I'm not whilin' out like I used to
I don't do the things that I used to no more
I've changed for you
Lookin' back I thought I would never
Love like this, broke so many hearts before
I've changed for you
New and improved, you bringin' out the best of me
Because the old me was lonely
Searchin' for my one and only, so happy that I found you
Saw the potential and you made it so simple
To be loved and I'll never be the same
Baby for you I've changed
I'm not whilin' out like I used to
I don't do the things I used to no more
I've changed for you
Lookin' back I thought I would never
Love like this, broke so many hearts before
I've changed for you
I'm not whilin' out like I used to
I don't do the things I used to no more
I've changed for you
Lookin' back I thought I would never
Love like this, broke so many hearts before
I've changed for you
