Transmigrating Beyond Realms Ov Amenti

Behemoth

There is a flame untamed
Deep in my heart
Unyielding, pure Ain Soph
'Tis measureless our right divineAspire to all horizons
To seek nature of things
Retreat within yourself
To find the primal breathSlaves of the dead gods
Martyrs of the falsehood
Your life is death now
Engulfed by the wake of a million years
Welcome to AmentiTo perceive means to know
To possess means to deny
In the catacombs of life
Concealed within deaths vaultsPure vibration lies
Nitya-samsarins
Travel to the house of empty words
Devour their heartsSlaves of the dead gods
Martyrs of the falsehood
Your life is death now
Engulfed by the wake of a million years
Welcome to AmentiJerusalem is falling
Falling, falling
Jerusalem is falling
Yerushalaim nehereset
