

# Don't Know How

## Avant

I wish that I could love you  
But I don't know how to love you  
There's no one here to blame  
So you can charge it to the game  
But I really wanna love you  
But I don't know how to love you I was tryna be the different one  
That will give you the kind of love that a woman wants  
It's so unusual for me to feel this way  
'Cause I like to play the field  
Baby this is what it is  
I'm caught up, aye  
Maybe one day it will change  
Only if you choose to stay  
But now all I can say Is I wish that I could love you  
But I don't know how to love you  
There's no one here to blame  
So you can charge it to the game  
But I really wanna love you  
But I don't know how to love you Girl I know you've been hurt many times before  
And relationships appear from love and war  
You can act as if it doesn't exist  
But it does  
Admit it face to face  
Girl, I'm in a different place  
Is it worth it?  
I don't wanna let you go  
But there's something you should know  
How can I get this through to you? I wish that I could love you  
But I don't know how to love you  
There's no one here to blame  
So you can charge it to the game  
But I really wanna love you  
But I don't know how to love you I'm not the faithful type of guy, can't help it  
I want your cake and some of hers, I'm so selfish girl  
I know you're sick of all my games in my book  
I understand how you feel I wish that I could love you  
But I don't know how to love you (Love you baby)  
There's no one here to blame  
So you can charge it to the game

But I really wanna love you  
But I don't know how to love you I really wanna love you yea
