

The New Day

Briege O'Hare

The New Day

O gentile Christ i thank you forever
that you have freely raised me from the black
and from the darkness of last night
to the kindly light the light of this new day
Praise onto thee oh God of creation
according to each life as parted onto me
In my desire my thoughts and my word
praise onto thee o light of this new day

enfold me God
in your glory eternal love
and dwell within my heart and mind throughout this new day
and surround me o God in all i see
Be now in every hope i hold
O God surround me

And surround me O God in all i see
Be now in every hope i hold O God surround me
hold me enfold me o God
be now in every hope i hold o god surround me.
