

Burning Days

Strings Of Atlas

I can tell by the way
That you're burning your days
That your times already come and goneHear that sound in your voice
Consequence in your choices
Are you setting for where you got stuck?Tell me how do you how do you feel?And I'll do it all for you
Like they do it all for me
And we'll take a little time
And see all that we can seeDon't say it's all for nothing babyThey'll never understand you
But they'll say that they tried
You're screaming from your heart now
And they stand and wonder why
I want to be like Hendrix carve a mountain with my hand
I got to sail the stars and be a pioneering manTell me how do how do you feel?
Tell me how do how do you feel?And I'll do it all for you
Like they do it all for me
And we'll take a little time
And see all that we can seeAll I took when I
Left that place behind
Was a planAnd all I need is to
Get a little further
Than I amDon't say it's all for nothing babyDon't throw it away
