Human Nature

Degradead

Lost control
An urge for sickening acts
Selfinflicted Pain
You have no choice
Become alive
Detach your soul and burn
Extend your hand
Reach out to me

We are known As Degradead
They are known
As the ones who degrade themselves
Can you can you feel the fall
Beyond your call
Can you Persevere stand stall
It will kill us all

Create your light
No aid is coming for you
Poison in your veins
Set it free
Clouded judgement society
