

Impossible

Frankie J

I turn my head to the right and there you are
With the smile upon your face
And all I could say is damn youâ€™re beautiful
I canâ€™t stop thinking about you,
Girl youâ€™re always on my mind
And all I could say is damn youâ€™re beautiful

Hey love, itâ€™s funny after all this time
Your touch still kinda blows my mind
Your hands must have been made in heaven,
In heaven baby
Your hands shake like a Spanish guitar
Your lips, they could be a work of art
I love the way youâ€™re put together, together

I turn my head to the right and there you are
With the smile upon your face
And all I could say is damn youâ€™re beautiful
I canâ€™t stop thinking about you,
Girl youâ€™re always on my mind
And all I could say is damn youâ€™re beautiful

You got me on permanent
I crave, your body around the clock
I plan to keep you here forever,
Forever baby
Cause those eyes tell me youâ€™re the only one
Your smile is harder than the morning sun
Youâ€™re more and so perfectly for me
Beautiful

I turn my head to the right and there you are
With the smile upon your face
And all I could say is damn youâ€™re beautiful
I canâ€™t stop thinking about you,
Girl youâ€™re always on my mind
And all I could say is damn youâ€™re beautiful

Sheâ€™s down for whatever, thatâ€™s right
No matter the weather, she would

Do anything, just to, make me feel better
That's why, I owe her my loyalty
And treat her like royalty
Baby you on to me, and that's why I give you all of me
Let's look to the future, and laugh at the past
I'm in love with you, but obsessed with your ass
You know what I mean, I wake up to a dream
Every time I see you, damn you're beautiful

I turn my head to the right and there you are
With the smile upon your face
And all I could say is damn you're beautiful
I can't stop thinking about you,
Girl you're always on my mind
And all I could say is damn you're beautiful.
