Deep in the Heart

U2

Angel, everything's gonna be alright
Angel, everything's gonna work out tonight
Thirteen years old, sweet as rose
Every petal of her wafer thin
Love will make you mine
Creep up from behind
Get you jumping out of your skin
Angel... it's sink or swimDeep in the heart
Deep in the heart of this place
Deep in the heart
Deep in the heart of this place
Door is closed behind me now
The Window is sealed to shut out the light
Green as the leaves
And the cure of the meadow stain
Do your work, it'll work out rightDeep in the heart
Deep in the heart of this place
Deep in the heart
Deep in the heart of this placeThe scent of cedar, I can still see her
You can't return to the place you never left
Angel, we'll make it work out tonight
Angel, I wanna be home tonight
Door is closed behind me now
The window is sealed, they shut out the light
Green as the leaves
And the cure of the meadow stain
I do my work, and you'll work out rightDeep in the heart
Deep in the heart of this place
Deep in the heart
Deep in the heart of this place...
