

# Pretty Girl

## Sugarcult

Pretty girl is suffering,  
while he confesses everything  
Pretty soon she'll figure out  
what his intentions were about And that's what you get for falling again  
you can never get him outta your head  
And that's what you get for falling again  
you can never get him outta your head chorus:  
Its the way that he makes you feel  
its the way that he kisses you  
its the way that he makes you fall in love She's beautiful as usual  
with bruises on her ego and  
her killer instinct tells her to  
be aware of evil men And that's what you get for falling again  
you can never get him outta your head  
And that's what you get for falling again  
you can never get him outta your head Chorus Pretty girl  
Pretty girl  
Pretty girl is suffering  
while he confesses everthing  
pretty soon she'll figure out  
you can never get him outta your head its the way that he makes you cry  
its the way that he's in your mind  
its the way that he makes you fall in love Its the way that he makes you feel  
its the way that he kisses you  
its the way that he makes you fall in love, love
