

Nobody Dies

Thao & The Get Down Stay Down

Not to say, not to say
I wasn't grieving in the evening
Not to say, not to say, not to say
I want another, just like the other I send all of it
I take all of it
I send all of it And then you send it, you send,
Then you send, you send it all back to me
We act like nobody dies
You act like nobody dies I act like nobody dies
We act like nobody dies
What to say, what to say, what to say
Who could bother with a father What to say, what to say, what to say
You made a cruel kid, come look what you did
I take all of it
I send all of it And then you send, you send it all
Oh my life, won't you come for me
I have love to give, too scared to leave
Oh my life, won't you come for me I have love to give, too scared to leave
We act like nobody dies
You act like nobody dies
I act like nobody dies
We act like nobody dies We act like nobody dies
You act like nobody dies
I act like nobody dies
We act like nobody dies
