

Change Your Ways

Adeaze

My brother sing, Yeaahhhh yeahhhh yeahhhhhVerse 1 -
Many people think that playing's alright
Let me tell you its not, your playing with something that's hot, stop
Love is something that you shouldn't mess with
Cos one day you'll wake up and you've missed a spot in heaven
Learn to be responsible for your life, sit down and face this way
There's something we wanna sayChorus -x2
Change your ways, my brothers can u help me say
Change your ways yeahhhhh make the future a brighter day
(For the next) For the next generation is on its way yeahhhVerse 2 -
Don't be dissing family; they love you
And if u feel they don't there's someone else to turn to
there were times when you will feel the pressure
Stop thinking keep your cool, your someone who's better
Drop the gun, don't kill yourself, your someone
Take a look at me and Nainz, we'll tell u we love youChorus x 2
