Wheels

Lone Justice

I wish you never even loved me It makes it so hard to live without love now I know you're often thing of me Sometimes I feel you so close by that it takes all my might to keep from trying to track you downI can surly keep you out of sight Forget about the way you look,your smile,the way you speak But I've heard in the dead of night Outside my window silence breaking with the sollid
destination of your lonesome speedChours
I know the sound of your wheels
yeah,yeah,yeah
I know the sound of your wheels
yeah,yeah,yeah
I know the sound of your wheelsI had a handle on my sorrow
My composure was in order if not sufficiently intact But every reminiscent echo
Brings a blow to chill my sesses and my heart quakes and tenses 'till those moments passChoursEvery trace, every vision
Brings my emotions to collision
Past love's lost tokens
Every cherished thought once spoken
False hope of reconciliationChours
