

# Undead Element

## The Skylander Boy and Girl

Yeah they undead  
Lights off, now who's scared?  
Bad guys, don't you go to bed  
You know who they are, they undead  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
Any enemy is gonna get it, get it

Run, Run, be afraid of the dark  
If you love Hex, let me hear you bark  
ruff, ruff, roof, arroooooo  
Nobody loves Kaos, cause he's a fool  
There's over 22 hot on his trail  
But the rain of skulls should make him fail  
Raise a wall of Bones to keep him in jail  
Out the coffin, pops a nail  
BOOM!  
Night Shift appears  
With the one-two punch, ain't going nowhere  
That vampire bite, it's got 'em scared  
But still somehow he disappears  
(Where'd he go?)

So let's sick Funny Bone on his scent  
When the undead dog get involved it's a bet  
That a saws going off & the frisbee get sent  
Right past Kaos' head, it just missed his skin  
He countered that with magic attacked  
But the health healing paws from the trench got his back  
Kaos dips quickly,  
But with the swiftness moves in the king of the Krypt kid, get me?  
Might get slippery when he hits critically  
Traptanium rains, swords of storm entering  
Parasites on board, unleash the swarm

Kaos slips away again, the hunt is on

Yes it is, now who's up next to bat  
We sending in bat spin, shooting her pets at  
The direction Kaos was last heading in  
Protected by Mr. Blocky her best friend  
Nowhere in sight, but a Witch Pitcher pops up  
No rest for the wicked, it's time to chomp up  
GO BATTY, G-G-GO BATTY  
Great balls of bats, that's a catastrophe  
But where oh where can Kaos be?  
He's not in the sea, he's not in a tree  
Time to pop in Chop Chop, but he  
Can't walk, cause he's got a broken knee  
So he stole the Crypt Crusher  
Put his shield on the front and bash stunned the cluckster (ha ha ha)  
Cruising around, one hand on the wheel  
One sword in the sky, with the help of an eye

Eye Brawl & Small tagging along  
Headless, but not helpless, but man come on!  
So slow, need to speed up, like Ghost Roast'  
Once we catch Kaos, he'll be toast  
(Well hot buttered toast! I love me some of that stuff!)  
His chain whip is fierce, he's piercing  
Leaving a lingering curse, enemies are bursting  
Mastermind lurking, waiting to take control,  
He's out of his mind, yeah that is for sure

Yeah they undead  
Lights off, now who's scared?  
Bad guys, don't you go to bed  
You know who they are, they undead  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
Any enemy is gonna get it, get it

Kaos we coming for you  
Can't run, can't hide, you know how we do  
We always catch up in the end

Who's up next that we can send?

It's the  
Elf striker they call Fright Rider  
With a flightless bird that burrows inside the ground  
Fear the spear, get dragged around  
360 jousting enemies out of bounds  
And now the bone chompies chowing, prowling  
On they way to the lair of the Count man  
They set traps like a bread crumb path  
So if Money Bone steps on one he's getting bone bashed

Speaking of that, time to switch up the strategy  
Bring Roller Brawl out, quick with the flattery  
"Oh no, look, I'm all alone in town. Wish there was a handsome man around."  
Kaos falls for it, cause then he creeps in  
"I'm here to sweep you off of your feet, ma'am!"  
Then out pops the crew, "we got you!"  
"Aw man I knew it was too good to be true!"  
Roller Brawl throws a vampire kiss  
But it missed when the cuffs split off Kaos' wrists  
"I told you two no more rock, paper, scythes. After him quick! Use all your might!"  
Hood Sickle teleports towards Kaos to catch him  
His range is too short, the evil boss dashin  
Fangerang can't reach but skates are fast  
But by the time she took off, he disappeared at last

Cynder swoops in and patrols the skies  
With Hijinx on her back as a second set of eyes  
Ready to strike lightning at the first sight  
Back on the ground, Tomb Buggy in the fight  
Rattle Shake in the seat  
Shoot snakes in the street  
Poison venom get him in case he sneaks  
Strike the feet of Wolfgang, wait he's good!  
It must be a glitch, yo I think he should...  
Grab his bone harp, blasting!  
Sending notes after Kaos to harass him and cause a disaster  
Rock star sliding to the face of danger  
Kaos his hiding cause losing's his nature

Yeah they undead  
Lights off, now who's scared?  
Bad guys, don't you go to bed  
You know who they are, they undead

(WHO?)  
U-N-D-E-A-D  
(WHAT YOU SAY?)  
U-N-D-E-A-D  
(COME AGAIN?)  
U-N-D-E-A-D  
(LET 'EM KNOW!)  
U-N-D-E-A-D  
(LET'S GO!)

Okay team, now we still haven't caught him  
Work harder, and stronger, and put your all in  
Fiesta's up next, amigos rushing  
After Chop Chop to get back to Crypt Crushing  
Take control, time for the solo  
Note tracking Kaos, but that's a no go  
Then oh no, he spots Kaos he's laid low  
But when they bust out the trumpet, their location was shown  
He's off again, but not too far we'll find him  
Short Cut pops up, surprise right behind him  
With the help from beyond, ghost form & armored  
Grim Creeper's got him now cornered

Say your prayers Kaos, it's over  
You're surrounded big boss, team get closer  
Any last words before we lock you away?  
Never ever to see the light of day

Well there is one question I have  
Just wondering if you would be mad  
If I... well c-c-can you  
Can you drop the beat? I don't really feel like rapping  
So what would you do if you found out it wasn't really me you had?

Yeah they undead  
Lights off, now who's scared?  
Bad guys, don't you go to bed  
You know who they are, they undead  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)  
U-N-D-E-A-D  
(SPELL IT, SPELL IT)

Any enemy is gonna get it, get it
