## **Next to You**

## **Bebel Gilberto**

So winter's come
And summer's fall
Time is just a whisper
In the waterfallForever now
Forever now
Every road I wander
Brings me back here next to youBe still my love
And close your eyes
Don't say a word
No hows or whysEverything I need within me
All the dreams I've dreamed are true
And all the starry skies inside me
When I'm next to you
