

# Fading

Baxter

So it's another way  
I'll take it back, I always do  
So it's another way  
I'll take it back, I always do I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done So it's another way  
I'll take it back, I always do  
So it's another way  
I'll take it back, I always do I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done I turn out fading  
It wasn't much to say  
It wasn't much to say I turn out fading  
It wasn't much to say  
It wasn't much to I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done I would be anything without you  
I could turn or being someone else  
And almost everything that needs to will be done So it's another way  
I'll take it back, I always do  
So it's another way  
I'll take it back, I always do So it's another way  
I'll take it back, I always do  
So it's another way  
I'll take it back, I always do
