

# Alive

## Good Charlotte

I visualize the first time we're together  
I close my eyes and for a moment all I see is you  
Turn off the lights  
Don't look outside  
The world's gone crazy  
But it's perfect here with you  
I've never felt so alive  
Like I feel right now in this moment  
I've never felt so alive  
Like I feel right here standing next to you  
I've never felt so alive  
I know what you're thinking  
You think that we're different  
And my reputation, and the stories  
Well at least you know it won't get boring  
Like all the one's who came before me  
Just let go as I crash into you  
I've never felt so alive  
Like I feel right now in this moment  
I've never felt so alive  
Like I feel right here standing next to you  
Heaven's heard me calling  
The stars have all aligned

Your touch is so electric  
And looking in your eyes  
I've never felt so alive  
It's so surreal  
The way you feel  
How fast my heart is beating  
And we're breathing together now  
As we float out  
Above the clouds  
I swear I'll never let you down  
I've never felt so alive  
Like I feel right now in this moment  
I've never felt so alive  
Like I feel right here standing next to you  
Heaven's heard me calling

The stars have all aligned  
Your touch is so electric  
And looking in your eyes  
I've never felt so alive  
I've never felt so alive  
I've never felt so alive  
I've never felt so alive
