

Weapons of Bass Destruction

The Bone Collector

I'm on a first name basis at the tackle shop,
Got a charge account running up non-stop
They ought to give me my own parking spot
I can't fit another plug in my tackle box
It's always under construction

For all my weapons of bass destruction I got buzz baits, zara spooks, pumpkin seed zoom flutes, booyah
crawfish jigs, I got a 7 foot flipping stick and all the soft plastics

To hook one on a texas rig
My Wife stays on me and the banker just told me
That he's working on a tax deduction
For all the money I'm dropping

On my weapons of bass destruction Hank Parker's got a wire tap on my phone
Bill Dance won't leave me the hell alone
Outdoor Channel wants to do a show
They wanna film me jaw jerkin down on Okeechobee
They better come with some high def production

Cause I got weapons of bass destruction I got jitterbugs and hula poppers, crank baits and wood choppers, devil
horses and broke backs, grass frogs a and chug bugs, straining on my cow cut? offset shank mustads,
I got a 250 Johnson, and a Redman sponsor,
And a Ranger in custom production to haul around me and my buddies
And my weapons of bass destruction
