

# Natural High

## Lil Rob

been busy, been busy, been busy.....\*lighter sparking up\*

\*inhale, cough\*{Lil' Rob speaking}

What's up?

Lil' Rob

Back on my own

The way it should be

The only way that it can be

Let's take to the sky{Lil' Rob}

Pack my pipa full of griffa

Just like my woman

I could never leave her, cheat her, need her

So I take a puff and another puff

Exhale, then I take a breather

Cause I'll take my time and do it right

I know where I'll be tonight

Cloud number nine in my mind

Feelin' fine, this is mine

You wanna get high?

Well come back another time

When you really want to fly

Cause I plan to take it to the point

Where I don't know my name

Won't even know where I'm at

But want to come back

To this place, where I sit

Rather your lips will take a hit

Prepare for licked, bring the pipe

Or a spliff I hit is swiff

God's gift, to this world, got me in a twirl

In a whirl, everything I see is plural

I'm just blasing, hallucinating

And I can't lie, smoking crepa chocolate tie

Lemon teardrops falling from my eye

Take to the sky, on my natural high

Till the day I die{chorus}

Take to the sky, of the natural high

Loving you more till the day I die

Take to the sky, of the natural high

Loving you more{Lil' Rob}

I can smoke it on my own  
Never leave me alone  
I'm in my zone  
Stoned to the bone  
Me in the dark, sittin' in the park  
Forgettin' everything that hurts my heart  
So I spark another joint, what's the point?  
Escape from reality, into a fantasy  
That's sexuality, feel the passion  
When the smoke is passin'  
Everlastin' type of bud  
When I smoke my buds  
Takes me to a place  
Smile upon my face  
Cause she sets me free  
From the things I see  
Let me be somebody, hear my plea  
It's only me, I'd rather be lonely  
Roll it on my own, cause I hold my own  
Toke it on my own, used to think of dyin'  
Now I think of flyin', like I've never flown  
Spread my wings and fly  
Why lie? It's something that I can't deny  
Take to the sky, on my natural high  
Till the day I die{chorus}  
Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you more{Lil' Rob}  
Life is like a maze  
Gots me in a craze  
So I hide away in marijuanas maze  
Change my evil ways  
Spending half a day  
Captured in the rapture  
Love the way she plays  
Gots me feelin' weariness  
Dizziness, love it when I feel like this  
I'm real like this, smokin' all this flavored shit  
It's time to call it quits  
But once again my lighter flicks  
And I take another puff  
Just can't get enough  
Of this happiness  
Smoking canibus

Devotion to my potent potions  
What I've chosen, love it when my time is frozen  
Gots me in that motion, like I'm close to floatin'  
Takin' to the sky, when I want to fly  
And I'm sittin' on my cloud, like Joe Buton  
Don't stop now, la Ralfi Pagan gone, and I'm gone  
It's the wicked, slicked, slide, type a guy  
With, it's something that you can't deny  
Take to the sky, on your natural high  
Till the day you die{chorus}  
Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you moreOoooo  
Lil' Rob  
Roll me another, mmmmm  
Feels so good up in my chest  
No stress  
When I'm smoking on Maryjane  
Ooooo, she's callin' my name  
No doubt about it  
Yeah, yeah, yeah  
Take to the sky{chorus}  
Take to the sky, of the natural high  
Loving you more till the day I die  
Take to the sky, of the natural high  
Loving you moreTake to the sky, yea
